The XPOWER P-800TH air mover is designed to commercial and residential applications. Featuring 3 speeds, 3-hour timer, and 3-angle drying positions (0°, 20° kickstand & 90°). This unit can quickly and effectively dry carpets, floors, walls, ceilings, paint, or water damage areas. The telescopic handle and wheels are for easy mobility. Lightweight and stackable design make it easy to transport and store.

★ 3-Unit Stackable

3 SPEEDS: With 3 speeds option, you can adjust the speed and airflow according to the actual demand.

3-HOUR TIMER: The 3-hour timer setting is designed for hassle-free operation.

FLEXIBLE MOBILITY: With the adjustable telescopic handle and wheels, it is easy to adjust the desired height with the lever and flexible to move the air mover to the targeted area.

STACKABLE DESIGN: The stackable design (up to 4 units high) and wrap-around cord design make it convenient to transport and store. The 6.1m power cord makes it available for long-distance reach.

WIDE APPLICATION: The durable PP housing strengthens the machine's durability, and makes it ideal for use in basements, construction, carpet cleaning, janitorial service, and water damage restoration areas.

3-ANGLE DRYING POSITIONS: The 3-angle drying positions (0 ° , 20 ° , 90 °) allow you to deliver strong air circulation to any direction and dry the space quickly and efficiently.

POWERFUL: This commercial high velocity air mover can deliver 5400m³/h (3200 CFM) high-velocity airflow and 1350 RPM fastest speed for strong air circulation and drying.

Model	Volt & Cycle	Power	Amps	Rated Airflow	Weight(N.W.)	Dimension(L x W x H)
