5 STAGE HEPA AIR SCRUBBER

*With Dual UV Lights***AIRFLOW: 500 CFM**Purifying the air in a **100M³** room **9 TIMES** per hour

20W DUAL UV-C LIGHTS

This air scrubber combines with UV light technology to decompose remaining odor molecules caused by smoking, cooking, and pets

Designed with the unique needs of businesses, clinics, hospitals, hotels, and similar facilities in mind, the **XPOWER X-2830U** commercial air purifier gives you maximum options with 5 speeds and 500 CFM airflow capacity. This high performance air purification unit includes Dual UV-C lights built in to help eliminate germs, viruses, and pathogens. Also featuring a new TiO₂ (Titanium Dioxide) filter which helps break down organic compounds and other VOCs. This unit truly has all the bells and whistles for ultimate air quality control management. Finished in a high-end matte black finish, it can blend in with any professional or business setting for cleaner and healthier indoor air quality. Advanced digital controls for speed settings, a timer function, and a PM2.5 air quality meter make it the most user-friendly, easy-to-set-up air scrubber on the market, and the timer makes off-hours operation a breeze. Suitable for a variety of applications in spaces where optimal indoor air quality is crucial, powerful enough for a medium to large-sized room, and quiet enough for a business environment, it's optimized to clean the air quickly so you don't need to run it all day, solving the noise issue, saving electricity, and avoiding the hassle of dealing with multiple units. Unlike many other air purifiers, it even has a handle for easy transport and a lightweight design.

- Dual UV lights (UV C) helps eliminate germs, pathogens, and viruses.
- Digital Control Panel for Timer Function, Filter light indicator, 5 Speed Settings.
- Digital PM2.5 Air Quality sensor with built-in read out and light indicator.
- Timer function for easy set and forget air purification; perfect to setup during off hours.
- Powerful & energy efficient external rotor induction motor.
- Low 1.0 Amp draw with 950M³/H(500 CFM) maximum airflow capacity.
- 5-speed digital control panel for Powerful high-speed to an extremely quiet low-speed.
- 5-stage filtration system including activated carbon, HEPA filter, and TiO₂ filter.

USER-FRIENDLY DESIGN

STACKABLE

5 STAGE FILTRATION

NYLON MESH FILTER

The nylon filter to capture larger particles such as lint, hair and visible dust.

PLEATED MEDIA FILTER

Dense, high capacity filter prolongs the life of the HEPA filter, reducing filter maintenance.

ACTIVATED CARBON FILTER

Highly effective at removing offensive odors as well as VOCs & hazardous fumes.

* Available with certain models

HEPA FILTER

Captures dangerous submicron particulates missed by most filters at a 99.97%

TiO₂ FILTER

Works with UV light to help break down organic compounds & other VOCs.

* Available with X-2830U

UV-C LIGHT

Inactivates or kills any biological contaminants in the air such as airborne viruses, bacteria, & other pathogens.

* Available with X-2830U

Model	Volt & Cycle	Power	Air Changes Per Hour (100m ³)	Rated Airflow	Weight(N.W.)	Dimension(L x W x H)
